

SPICER®

Spicer Life Series® Driveshaft Components Nomenclature

Genuine Spicer® Driveshaft Components –there is no substitute.

When it comes to keeping your vehicle up and running, why take a risk with unproven knock-off replacement parts? Spicer® drivetrain components are the original equipment parts, adhering to rigid manufacturing specifications for performance and reliability. Unlike non-genuine parts, our wide range of Spicer driveshafts provides less vibration, improved balance and stiffness, and more protection against environmental contaminants. It all adds up to longer-life parts for maximum time on the road and minimum operating costs, proving Spicer is the best choice. Contact your Spicer sales representative or visit us on the web at www.spicerparts.com.

This document is intended for nomenclature purposes only and is not to be used for assembly instruction. It does not include every possible scenario or product name. Parts pictured are for reference only and are not intended to be all-inclusive. Alignment or yoke are not representative of all forms of steering. Yokes are phased per Original Equipment Manufacturers' requirements.

Warning: Rotating shafts can be dangerous. You can snag clothes, skin, hair, hands, etc. This can cause a serious injury or death. Do not work on a shaft (with or without a guard) when the engine is running.

Demand the best . . . Demand genuine Spicer®!
